Kiln-Dried Lumber Grades

Lumber grades are determined by the strength of the wood, appearance of the wood, and the number of defects. Here are some of the grading terms we use at Stoltzfus Forest Products.

FAS: Derives from an original grade "First And Seconds"; long, clear cuttings – best suited for high quality furniture, interior joinery and solid wood mouldings.

Number 1 Common (No. 1C): Often referred to as the 'cabinet grade' in the USA because of its adaptability to the standard sizes of kitchen cabinet doors used throughout the United States.

Number 2 Common (No. 2C): Often referred to as the 'economy grade' because of its price and suitability for a wide range of furniture parts.

Wormy: Wormholes, limited sound knots and other imperfections allowed.

Rustic: Rustic in appearance, allowing all wood characteristics of the species.

S2S: Planed on opposite sides. The other two surfaces are the edges.

See our Kiln-Dried Hardwood Stock List on pg. 2

SFP Kiln-Dried Hardwood Stock List

Quantity	Thickness	Species	Grade	Price/ bd. ft.	Comments
7000	4/4	Walnut	FAS Prem.	\$8.50	Oak Rules, 90/70 Blk
